KUBOTA DIESEL TRACTOR

B

B3300SU Special Utility Tractor

Kubota's new B3300SU tractor delivers the perfect blend of power and performance to take on almost any task.

With hydrostatic transmission and power steering, the 33HP B3300SU is perfect for all types of loader applications.

Power Steering

High-capacity power steering offers higher torque, giving you responsive control, and a vibration dampening mechanism which helps reduce fatigue and increases comfort during long days on the job. In addition, manoeuvrability in soft ground is made much easier, especially during loader applications.

Diesel Engine

The B3300SU features a smooth-running 33HP, 4-cylinder, liquid-cooled diesel engine, with Kubota's E-TVCS (three-vortex combustion system) for increased power, high torque and cleaner emissions.

3-range Hydrostatic Transmission

Our proven hydrostatic transmission provides smooth shifting and powerful performance for heavy-duty loader applications.

Quarter Inching Valve

With increments of 1/4" at the lower link end, our quarter inching valve provides easier control. The 3-point hitch lever guide allows smaller adjustments, which are often required when attaching/detaching implements or when performing sensitive jobs.

Powerful Category I 3-point Hitch

The hitch is designed to handle a variety of implements with fast and easy hook-ups.

3-Point Hitch lift capacity is strong enough to handle implements like a slasher, box blade, finishing mower and more.

Loader Valve

Loader operations are more convenient with the 4-position valve and control lever. Integrated into the tractor, this ergonomically positioned valve lets you attach the front loader and other front implements quickly and easily.

ADDITIONAL FEATURES

- Full-open bonnet and slide-out grill
- Foldable ROPS
- Large 31 litres fuel tank

Specifications

Model			B3300SU (4WD)
Engine			E-TVCS, liquid cooled, 4-cylinder diesel
Type			Kubota V1505-E3-D24H
Make, Model			
PTO horsepower	HP (kW)		25.0 (18.6)
Engine gross horsepower	HP (kW)		33.0 (24.6)
Rated RPM	rpm		2700
Bore and stroke	mm		78 × 78.4
Displacement	cc		1498
Air cleaner			Dual paper element
Lubrication			Forced lubrication
Cooling system			Liquid cooled pressurised radiator
Capacities			
Fuel tank	ℓ		31
Cooling system	ℓ		4.5
Engine oil	ℓ		5.4
Transmission case	ℓ		14.5
Drive train			
Clutch			Dry single plate
Transmission			HST (3 ranges)
Differential lock			Standard
Final drive			Spur gear
Brake			Multi-plate wet disc
PTO			
Type			Live
Revolution	rpm		540
Hydraulics			
Type			Open center
Pump			Dual pump
Total pump output	ℓ/min.		37.5
Hydraulic outlet			Front outlet (w/ standard valve)
3-point hitch			Category I
Hydraulic control system			Quarter inching valve
Lift capacity	at lift point	kg	810
	24" behind LP	kg	635
Steering			Power steering
Tyre size			
Front			R1: 7-12/R4: 23 x 8.5-14
Rear			R1: 12.4-16/R4: 12.4-16 R4
Travelling speeds (at rated engine rpm)			
Forward	km/h		R1: 119.1 / R4: 20.6
Reverse	km/h		R1: 15.3 / R4: 16.5
Dimensions			
Overall length (w/o 3P)	mm		2520
Overall width (min. tread)	mm		R1: 1365 / R4: 1470
Wheelbase	mm		1696
Ground clearance	mm		R1: 370 / R4: 395
Turning radius with brake	m		2.4
Weight	kg		R1: 800 / R4: 875

The company reserves the right to change the above specifications without notice.

This brochure is for descriptive purposes only. Please contact your local Kubota dealer for warranty information.

For your safety, Kubota strongly recommends the use of a Rollover Protective Structure (ROPS) and seat belt in almost all applications.

For complete operational information, the operator's manual should be consulted.
