

# FENCE-PRO Mule

# FENCE-PRO Mule

## Standard Features

- 4m mast (extra heavy duty)
- 4 Bank Valve (1 spare function)
- Hydraulic top link
- Hydraulic side tilt
- 230 kg block
- Height adjustable feet
- 60mm diameter mast pivot
- External pressure relief valve

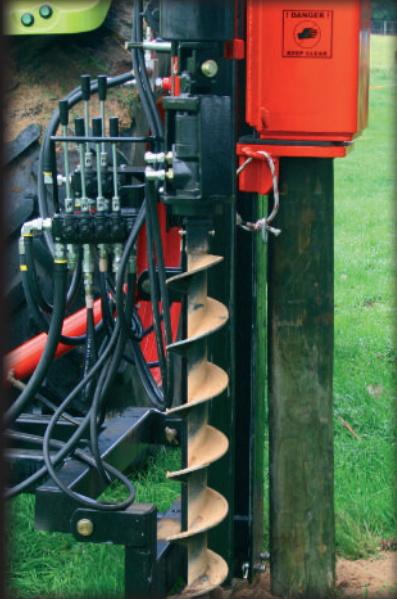

## Options

- 250kg or 270 kg block upgrade
- 420mm or 900mm side mount unit
- 250mm mast shift
- 4.5m hydraulic hinge mast
- Rock Spike Extractor system (RSE)
- Hyd auger to fit rock spike unit
- Hyd auger system without RSE
- Ultra/Mule hydraulic post lifter
- Sidemount unit leg roller

**Note** the Mule shown is fitted with various options for display purposes.

The Rock Spike Extractor System (RSE), can be used with a spike, an auger, or both.

The auger swings back into the transport position so you can drive the post into the hole.

This photo above shows the RSE with the spike in the transport position and ready to be pulled out in the photo below.

The **Mule** is an extremely robust and versatile driver capable of very high workloads in difficult conditions. The mast is the same construction as the Ultra G2 and can be fitted with a wide range of options so as to adapt to all types of terrain and soil types.

The **Mule** can mount directly behind the tractor, or on a sidemount or a rearshift unit. One man post positioning is easy with the mast shift and sidemount combo. Sandblasted and painted with an industry leading system ensures long life and durability. Please contact the Fence-Pro team for more information.
