

Kubota

KUBOTA UTILITY VEHICLE

RTV900xt

Work Site Model

The 2011 RTV900XT features:

- ✓ New front guard and graphics
- ✓ Extra torque under load
- ✓ Smoother dynamic braking*
- ✓ Easier gear-shifting*
- ✓ More durable drivetrain components
- ✓ More corrosion resistance (cargo screen)
- ✓ More seating comfort and improved styling

* Implemented with 2009 models.

General Purpose Model

**Tractors. Wheel loaders. Excavators. Lawn mowers.
Born into this family, naturally our RTV900XT utility
vehicles have very strong work ethics.**

Introducing the rugged Kubota RTV900XT utility vehicles. For generations, we've been engineering highly productive, off-road machines. And our RTV900XT Worksite and new General Purpose utility vehicles are no different. Replete with features not yet found on competitive machines, such as hydrostatic transmission, 3-speed shifting, advanced suspension system, power steering, and the highest ground clearance, you'll cruise comfortably over turf, trails, even rugged, hilly terrain. And combined with the RTV900XT's ability to carry and move heavy loads, its hydraulic dumping system* works harder than anything out there.

*Optional on General Purpose model.

KUBOTA UTILITY VEHICLE

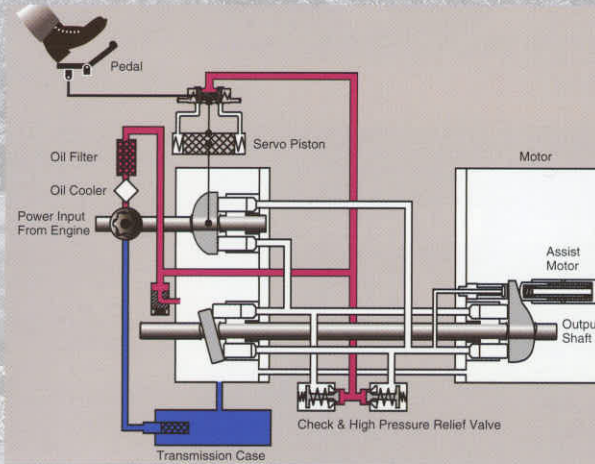

RTV900XT

To conquer the road less travelled, the RTV900XT has all the

Rugged. Powerful. Reliable. The Kubota design team developed the RTV900XT to be the hardest working utility vehicle on the planet.

VHT Plus2 (Variable Hydro Transmission)

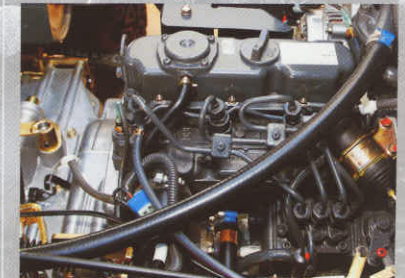

No rubber belts allowed. Kubota's exclusive high-performance, three-range VHT features more usable torque, steady acceleration, smooth engine-assisted deceleration hill-holding abilities and powertrain durability that no rubber belted CVT can muster over the long haul. If you're looking to maximize your carrying or towing performance, the VHT Plus2 is the only way to go.

Powerful diesel engine*

Even when hauling a heavy load, the robust, 21.6-horsepower, 3-cylinder, liquid-cooled Kubota D902 diesel engine can still power you in, over, and through rugged off-road terrain.

(* Meets EC standards.)

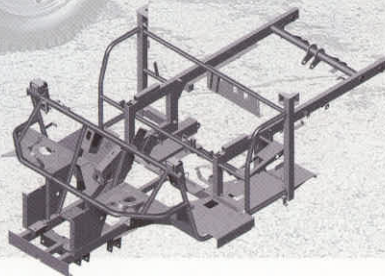

Responsive hydrostatic power steering

The RTV's exclusive hydraulic power steering provides exceptional control, maneuverability and comfort.

Highly durable frame structure

Meticulously crafted from a highly durable, lightweight metal and robotically welded for maximum reliability, the RTV900XT's amazingly strong frame structure can endure years of gruelling punishment.

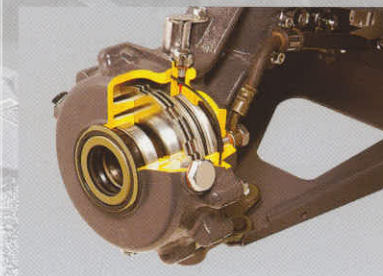

Advanced rear suspension

On each of the rear wheels, the semi-independent suspension-type DeDion axle, the leaf spring, and the shock absorber react together to minimise shocks when negotiating rough terrain.

Reliable wet-type disc brake

Taking on a hilly terrain means frequent braking. With our light-step, wet-type disc brake, you'll stop quickly and effortlessly. Plus, its durability means no drop in performance due to wear.

Ample ground clearance

With 211 mm (8.3") of go-anywhere clearance, the RTV900XT can cruise over rough and unpredictable terrain without worry. For a stable and comfortable ride, it's got a long wheelbase and wide-treaded tyres.

right features.

KUBOTA UTILITY VEHICLE

RTV900XT

1. Plastic roof*
2. Responsive hydrostatic power steering
3. Quick-read panel
4. Reinforced steel front guard*
5. Headlights
6. Front suspension
7. Highly durable frame structure
8. Ample ground clearance
9. Reliable wet-type disc brake
10. Deluxe bench seat/
Retractable seatbelt
11. Fuel tank
12. High capacity cargo bed
13. User-friendly tailgate lock
14. Rear suspension
15. Turn Signal Hazard*

**Optional on General Purpose model.*

Faster. Easier. Better. Check out these productivity enhancing features.

The RTV900XT's comfortable ride and easy operation reduces operator fatigue to keep you on the job longer.

Quick-read panel

To help keep your eyes on the road, the instrument panel's convenient layout lets you monitor vital operating conditions in an instant. The dash-mounted speedometer* offers quick indication of how fast you're driving. Monitor lamps include oil level, charge status, and much more.

High capacity cargo bed

Whether it's a big payload or loads of gear, you'll safely haul either in the extra-large cargo bed. A true hydraulic bed-tipping system* enables easy dumping by simply operating a single lever. The RTV900XT easily carries a 1.2 m (48") pallet.

Improved tailgate design

A new metal fitting on the tailgate of the RTV900XT allows the gate wire to swivel so you won't have to worry about it bending or breaking.

Glove box

From work gloves to field manuals, the ample storage space provided by the RTV900XT's standard glove box lets you keep nearly whatever you need close at hand.

New Reinforced Steel Front Guard

Unlike some competitive machines that have decorative brush guards, the heavy-duty, reinforced steel of our front guard offers protection. (Optional on RTV900XT General Purpose model)

New Seat

RTV900XT's seat features a full-length backrest and softer, more sculpted seat bottoms for better comfort.

Specifications

Model		RTV900XT General Purpose	RTV900XT Worksite	
Body color		Orange		
Engine	Make	KUBOTA D902-E3-UV		
	Type	3-cylinders, 4-cycle, diesel, OHV		
	Displacement	cc	54.8 (898)	
	Horsepower	HP (kW)/rpm	21.6 (16.1)@3200	
Fuel tank capacity	ℓ	28		
Transmission		Variable hydro transmission (VHT Plus 2)		
Max. traveling speed	mph (km/h)	25 (40)		
Wheels, drive system		4, Rear 2WD or 4WD		
Differential lock		Standard; foot operated with mechanical holder		
Gear selection		Hi-Med-Lo range forward, neutral, reverse		
Brakes	Front / Rear	Wet-disc brakes		
	Parking brake	Rear wheel, hand lever		
Steering		Hydrostatic power		
Suspension	Front / Rear	Independent, Mac-Pherson strut-type / Semi-independent, DeDion axle w/leaf springs and shock absorbers		
Dimensions	Length	mm	2990	3030
	Width	mm	1520	
	Height, overall	mm	2010	
	Front tread centers	mm	1150 w/HDWS, 1180 w/Turf	
	Rear tread centers	mm	1180 w/HDWS, 1210 w/Turf	
	Wheelbase	mm	1965	
	Ground clearance front/rear axle	mm	210 / 190	
	Turning diameter	m	7.8	
Max. rolling weight (Towing capacity)	kg	590		
Payload capacity	kg	770	745	
Weight	kg	850	875	
Cargo bed	Width × Length × Depth	mm	1320 × 1180 × 290	
	Volume	m ³	0.455	
	Bed height (unloaded)	mm	800	
	Cargo bed load	kg	500	
Sound level, operator ear	db. (A)	87 @ Max. engine speed w / no load		
Tyres	Front	25×10-12 HDWS, 6PLY		25×10-12 HDWS, 6PLY
		—		25×12-12 Turf, 4PLY
	Rear	25×10-12 HDWS, 6PLY		25×10-12 HDWS, 6PLY
		—		25×12-12 Turf, 4PLY
Front guard		Opt.	Std.	
Hydraulic bed lift		Opt.	Std.	
Speedometer		Opt.	Opt.	

The company reserves the right to change the above specifications without notice. This brochure is for descriptive purpose only. Please contact your local Kubota dealer for warranty information. The values in "Ground clearance" and "Weight" are those of the machine equipped with the tires in the table above. *Numerical values for Turf Tyres.

Accessories

• Optional

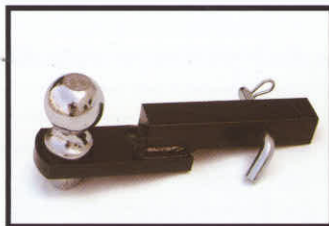

Rear Work Light

Mount a pair of our powerful rear work lights on your RTV900. Same kit as our front work lights. Includes two.

Backup Beeper

Automatically activated, backup beeper emits a loud beeping sound when the RTV900 is put into reverse gear.

Rear Trailer Hitch

5/8" straight hitch. Lets you tow those extra-big payloads. (Does not include hitchball.)

Front Work Light

Hook up a pair of our front work lights and drive more safely at night. Includes two.

Front Accessory Box

Gives you added storage under the hood.

Bed Liner

Protect your bed surface and cargo with our non-slip durable bed liner made from extra-thick flexible rubber.

Glass Windshield

Full-width, seamless safety glass provides outstanding visibility.

Soft Cab/Steel Cab

High-grade construction, full-width front windshields. Two-tone finish; orange top, and black doors.

High Air Intake Kit

The 127 mm (5") diameter air cleaner comes standard with a pre-cleaner and has been raised so that it's protected from the dust and dirt caused by heavy work.
