

# ***THE FEEDLOT*** ***FEEDER LEADER***

***“Leading The Way”***

Specifically designed to feed into feedlots, bins or along fence lines

Feeds out round and square silage bales and square hay bales exactly where you want them

Easier location of forks due to unique different fork lengths

Fully covered in with 3mm press plate steel sheet to eliminate wastage

Heavy duty quick release fork catch

Heavy duty 65mm loading fork frame

Heavy duty, sturdy, robust construction – compare with other brands

No bearings – unique greasable molybushes that are long lasting but cheap and easy to replace

Completely enclosed drive shafts to eliminate wrapping

All machines come standard with brackets to enable big square bale attachment to be fitted

Specifically designed right hand feeding into feedlots

No primary drive chains – direct drive for heavy duty hydraulic motor

Designed specifically for round & square silage bales and square hay bales – will do round hay bales with our special Feeder Leader teaser bar
